

# SUCCESS UNIVERSITY

Louisville, KY

## ***BEGIN YOUR NEW PROGRAMMING JOURNEY WITH SUCCESS UNIVERSITY!***

### **PARENT & YOUTH EDUCATION NETWORK**

*It Takes a Village*

*A collaborative network that provides holistic programming, including but not limited to furthering education, the arts, sports, and health and wellness as a platform to express ourselves and get to know each other. By offering experiential learning in and outside the classroom, addressing specific socioeconomic needs, and providing valuable workshops, our participants are guaranteed life-changing experiences.*

### **MISSION**

Disrupt the cycle of youth disenfranchisement and disengagement, creating a universal platform for youth programming to address the needs and opportunities for the personal development of youth. A focus will be placed on youth and their families who reside in Louisville Metro's most socioeconomically challenged neighborhoods. This platform will give youth service providers a group of vetted agencies, clinicians, educators, and partners with a programming foundation that can be franchised and tailored to meet the needs of specific programmers and participants.

**JOIN NOW** [hopebyhopeinc@gmail.com](mailto:hopebyhopeinc@gmail.com)

### **VISION**

Allow participants to demonstrate positive and peaceful actions, respecting themselves and others, while understanding that knowledge is power. Success University creates a culture focused on diversity, equity, and building sustainable communities.

### **PURPOSE**

We empower youth who have little to no support, poor academic performance, frequent disruptive behavior, aggressive personalities, and are affected by ACES. We provide youth with a network of opportunities to realize their dreams. Through partnerships and collaborations with like-minded individuals and organizations, empowering those most vulnerable, cultivating relationships, and enhancing positivity, we propel our participants on the upward trajectory of scholastic achievement and have a stake in their communities.

### **OBJECTIVES**

- Assist youth and families with personal elevation, self-accountability, respect, and trust within themselves and their community.
- Create sustainable partnerships with community leaders, agencies, organizations, and governance to promote and stabilize positive outcomes for youth and families.
- Expose youth and families to an effective understanding of fundamental life concepts.
- Promote moral character and ethics, citizenship, and being an integral part of their community's fabric.
- Provide youth and families with Cultural Therapy®, holistic wellness, community resources, and networking opportunities.

*Success University implements a curriculum that provides TRAUMA-INFORMED CARE and combines it with mentorship, strategic programming, and violence interruption to create an ecosystem of support, understanding, and opportunities. We deliver this Cognitive Behavioral Therapy (CBT) and mentorship through our unique programming approach with "Community Empowerment Services".*
